**IT CARES AND NOT JUST
COVERS THE IRRITATED SKIN!**

**For the daily care of
psoriatic, atopic, seborrhoeic skin**

Cream - 50 ml, 100 ml, 200 ml

It normalises the process of keratosis and due to its keratolytic effect, it helps thinning the thick scaly tetter plaques which developed earlier. You may use it either after taking a shower or bath or you may apply this cream on the affected areas of the body more than once a day.*

Body Balm - 250ml

Body balm with high herbal content, which tranquilises the irritated skin and it can calm itching and reduce the flaking of the skin. You may use it either after taking a shower or bath or you may apply this balm on the whole body more than once a day.*

Shampoo - for psoriatic, seborrhoeic scalp
250ml

Hair care and hair conditioning calming shampoo. Its active agents can prevent the flaking process and can mitigate irritation. Apply a walnut amount on your hair, leave it on for some minutes then rinse thoroughly. If necessary repeat the process.

Shower gel - 250ml

Intensive skin nourishing shower gel for everyday use. Its cleaning agents help to prevent drying of the skin and replaces the lipids during showering. When taking a shower apply the gel on your skin then dry it without rubbing.

RECOMMENDED FOR WEEKLY USAGE
